EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This communication is an Examiner's reasons for allowance in response to application filed on July 22, 2004, assigned serial 09/837,619 and titled "MAPPING AND ADDRESSING SYSTEM FOR A SECURE REMOTE ACCESS SYSTEM".

2. The 35 U.S.C. § 112 rejections applied against the claims are withdrawn in light of the submitted arguments.

3. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

a. After carefully reviewing the application in light of the prior art of record, the amended claims and additional search of all the possible areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the application unpatentable. Thus, it is found that the application is now in condition for allowance.

b. Although the prior art disclose several claimed limitations, none of the references teaches an apparatus and method for servicing requests generated by an individual for geographic information which includes at least the steps of receiving a request at a remote access server (see figure 1, item 12) from a remote access device (cell phone 16a, for example), wherein the requests calls for the remote access server to obtain data (user's address book stored) from the base device (home computer, for example) owned, operated and/or controlled by the individual, and the base device is operatively coupled for communicating with the remote access server (see claims 1, 17 and 29). Also, neither references teaches that the remote access server obtaining data from the base device and providing the geographic information called for in the request based at least in part on the data (claims 1, 17 and 29).

Art Unit: 3661

- c. Claims 4-45 are allowable over the prior art of record (now renumbered as 1-42).
